SPACE DIVIDERS

prices are excluding shipment charges - delivery time 4 weeks - material: Glass filled polypropylene - connection system: 2 tripod units connected with a screw hold the panels together. A little round cap is provided to cover the screw - 7 panels per square meter: this number is an average that is required to complete rectangular shapes - assembly: FOC delivers the system as individual panels, which can be easily assembled with just a screwdriver - installation: the railings where it is mounted on are always tailor made and need to be fitted on location. In order to fit the panels in square surfaces, they also need to be cut to size
